

I find it reprehensible that Sinclair Broadcasting chose not to honor our fallen heroes by broadcasting Nightline yet it is now forcing it's stations to air propaganda to further its own political agenda. This case unfortunately illustrates the concerns I had when I learned that the FCC would relax ownership regulations. That move is proving to be a detriment to the public. Having lived abroad for 8 years I have seen first hand the sad state of journalism and the free press in this country in that short time span. I implore you to put the clamps on Sinclair broadcasting and revoke it license. Thank you for your time.
